BASSANO RODEO HUGH SUCCESS

The 1956 edition of the Bassano Stampede was held as scheduled on Monday and, in spite of the threatening clouds, the whole day passed without a shower of rain.

A crowd estimated at 4000 first witnessed the down town parade and then entered the new Rodeo Grounds to be entertained by a variety of cowboy sports. The Stampede and the new Stampede Grounds were officially opened to the public by a few well chosen words and greetings from Bryce Stringam M.L.A. and the crowd were then entertained by the Brooks Band until the cowboy events commenced.

Winners in the Street Parade competition were: Decorated Float - Bassano 4H Club; Decorated Car - Irono's Ladies Wear, Casey's Red & White Store; Decorated Girl's Bicycle - Fay Pragnell, Carol Brent; Decorated Boy's Bicycle - Bobby Bacon, Johnny McCrady; Best Dressed Senior Cowboy - Walter Peake, Jack Stewart; Best Dressed Junior Cowboy - Gordon Connally, John Kirsch; Best Dressed Cowgirl - Joanne Fraser; Best Dressed Cowgirl under 16 years - Marlene Hale, Karen Boesen.

Winners in the Stampede Events were: Saddle Bronc Riding - Ken Pickett, A. Gravatte, Bort Bell and Win Goudie; Bareback Bronc Riding - Bob Brown, Shorty MacLean, Jim Hale and Gene Gunderson; Calf Roping - Bob Patterson 15.5 seconds, Ed Mounkes and Rudy Evanson split 2nd and 3rd with a time of 16 seconds, Bill Mounkes 17.5 sec; Chuck Wagon Race - Lloyd Nelson 1:12.2, Eresman Bros. 1:12.8, Griffith & Griffith 1:13.5 and Jack Coates 1:14.9; Cutting Horse Contest - Cliff Ross, George Chotham, Roy Burrows and Gail Ross; Wild Horse Race - Chief Big Eye, Bert Bell, Jack Coates; Wild Cow Milking - Jack Coates, Bob Griffith, Rudy Evanson, Joe Wells.

Race Winners were as follows: Relay Race - Hank Willard, Eresman Bros; Pony Race - Charlie Royal, Norbert Running Rabbit, Tony Young Man; Cart Race - Bob Gooch, Lloyd Nelson, Hank Willard; Saddle Horse Race - Hank Willard, Glen Stokes, Eresman Bros.; Indian Race - Charlie Royal took 1st and 2nd with 3rd going to Albert Many Bears; Free For All Race - Charlie Royal, Eresman Bros; Stake Race - Mark Cutter, Allan Chambers, R. Brown.

Gene Gunderson proved to be a very ambitious cowboy by competing in both the Bassano and Claresholm stampedes, commuting between the two contests by plane.

The Stampede concluded with a Cowboy Ball and carnival at night, both well attended.

FORMER BASSANO MAN IS DEAD

Jonathan M. Wheatley of Chancellor died in the Bassano Hospital on Sunday after a short illness. He was 61.

Moving to Canada in 1907, he lived in the Bassano and Tilley districts until 1914. He had lived in the Chancellor district since 1919. He was a leading figure in the Alberta Wheat Pool and had been prominent in farming, municipal and political organizations for many years.

Mr. Wheatley is survived by his wife, Milliecent; one son, Fred and two grandchildren, all of Chancellor.

MIDNIGHT FROLIC PLEASES CROWD

The Midnight Frolic sponsored by the Bassano Board of Trade was quite well attended and, according to all reports, was much enjoyed by those present. The music was supplied by The Four Hits and a Miss from Brooks, which supplied that lift that helps to make a dance a success.

TOWN TOPICS

Henry Ratzlaff of Calgary is visiting his cousin, John W. Ratzlaff for a few days.

Miss Ethel Moses has left for Edmonton to attend teacher's summer school classes. She will be on the teaching staff at Hanna next term.

The Bassano Brownies operated a popcorn and candy apple booth at the stampede on Monday. They gained a lot of retail experience but, no doubt, lost some of their faith in human nature. A few of their adult customers managed to manipulate their money so as to confuse those inexperienced storekeepers and received more money in change than they were entitled to. Shame! On the other hand, some people generously donated to their treasury without buying apples or popcorn. The whole deal almost balanced out but, after taking inventory, it was found that short changing had cost them almost two dollars more than the donations they had received. "A dollar saved is a dollar earned" is a good motto to follow but not at the expense of an organization of girls all under twelve years of age.

Mr. and Mrs. Art Hellwig moved to Blairmore on Tuesday, where they will reside in future. The move was made necessary due to the C.P.R. promoting Art to a higher position and stationing him at the Crows Nest town. We trust that they will be happy in their new surroundings.

Last week we mentioned that Bud's Coffee Shop had supplied the lunch for the volunteers who worked on the bleachers, which implied that this coffee shop had supplied the entire lunch. When people are named for credit in some worthwhile cause, usually there are some names inadvertently omitted and such proved to be the case this time. The Pioneer Meat Market and Casey's Red and White Store donated the meat for the sandwiches and the Friendly Stores and H.J. Bodmer & Son donated other supplies.

Wallace Fraser has been selected as the efficiency winner of the local 4H Club and is entitled to attend the 4H Club Week at the Olds School of Agriculture on July 23-28. Berna Block held second standing and will be the alternate winner to attend the O.S.A. if Wallace is unable to do so. Congratulations!

Art Flanagan is visiting friends in Ontario for a few weeks. He wrote back and advised that he had arrived in Ontario safely and was enjoying his visit.

Bob Knight received a surprise visit from two of his former school chums from Oregon. They took in the Bassano Stampede and left for home on Tuesday.

Mr. and Mrs. George Pearce of Calgary are guests at the home of Mr. and Mrs. Hugh Pearce for a few weeks.

Charlie McKinnon is renewing old friendships around town for a few days.

Miss Gladys Meidinger has left for an extended holiday to Walla Walla, Wash. She wrote back to say that the fruit on the trees there is a wonderful sight.

The Knox Church Ladies Aid wish to thank all those who donated pies to be sold at the booth at the stampede. Those who have not received their pie plates back may obtain them by calling on Mrs. Goodrich.

OUR COMPLETE SHORT STORY —

the wall

By C. K. PRIEST

IT WAS dark, so dark that the rain seemed to be pelting him with warm blobs of black ink. There was no light in this darkness, no beacon, no glow of distant village, only a single wavering speck of illusory brightness that appeared and disappeared in the far sky.

Lacking a better guide, Convict No. 614868 followed this vagrant gleam, stumbling, not knowing where his course led.

His escape had been easy, as prison escapes go. The lessons received from Zingo, once known as "The Human Fly," who had been his cell-mate because of certain unfortunate checks, had been well taught. Hours of practice until his fingertips were hard and as strong as claws; tiny almost invisible grips fabricated furtively in the prison shop and cleverly sewn into the soles of his shoes; these, and his will to escape had brought him up and over the high granite wall. Now he had until morning call before the alarm.

He plodded on, following the fragile gleam. He was no fool, to wander in circles in the purposeful wilderness around the prison. Nor would he take to the roads and inevitably discovery. Instead, with dawn, he would orient himself and head north, deep into the back country, until the hue and cry had worn down. A clever man could live well off this country, with its plentiful game, and the rain would cover his tracks.

Convict No. 614868 felt well pleased with himself. It had been carried through neatly. That was the way he had killed the girl who had double-crossed him. Of course, he had been caught and sent to prison, but he was not as smart then as he was now. He would have to do something to make it right with Zingo, who had taught him the trick of climbing.

He kept his eyes on the light that was now his guide. It was hard to follow. Sometimes it disappeared entirely and at other times it seemed to bob up and down. The illusion, he reasoned,

would be caused by the scurrying storm clouds. He managed to keep it directly ahead of him, although it seemed to grow dim as he struggled through the brush. The rain was falling faster, and the night growing even darker. It was that way, he thought, darkest before dawn.

Suddenly he stumbled into something, bruising himself. His fingers explored the cold surface. Another wall. He must have put over a mile between himself and the prison by this time. Then it came to him that this must be the embankment of the railroad spur track that served the prison. He would have to cross it some time — it might as well be now. He felt of the stone that extended up above him into the night. Granite, huge blocks of granite, just like the prison walls. This country was full of granite.

He began to climb, carefully, but it was farther to the top than he had expected and the strain of pulling himself up by his fingertips began to tell. He had no idea the track ran so far above the level of the land. He must have wandered into the low section. The ground had been marshy underfoot.

Up and up he went, and a surge of relief swept through him when his questing fingers at last felt the sharp ledge that meant he had reached the top. He allowed himself to swing clear of the wall for a moment, hanging suspended in blackness, before he made the final effort of throwing himself up and on to the tracks. That was the thrill of vertical climbing, Zingo had always said — to hang suspended in space while packed crowds below held their breath for the final spectacular swing. Zingo had climbed buildings with cornices that protruded three feet. Sometimes, Convict No. 614868 thought, he would practice climbing an overhang like that.

Slowly, as Zingo would have done, he began swinging his body like a pendulum from the pivotal grip of his fingertips, describing wider and wider arcs, until, with a supreme surge, he threw his body up and over. Convict No. 614868 allowed himself to sprawl out, as he reached the peak of his swing, thinking how nice it was going to be to drop down on the high track and rest.

But there was no roadbed, no track, beneath him. He felt himself falling into space; at first with surprise and then with piercing pain as his fingers clawed for a grip where there was nothing to grasp, as the momentum of his body carried him completely over and past the top. He plunged down and down, and he heard only faintly the thud of his body. For an instant he was conscious of a multitude of flashing lights and what seemed to be the pounding of running feet, and then all was a blackness greater than the night.

Some hours later, the chief guard made his report to the warden: "No. 614868 climbed out climbed back in on the other side, on one side of the prison wall. The only way we can figure it out is that he followed the light of a small plane that circling for an emergency landing. He must have struggled through the brush for hours, making a half circle back to the opposite prison wall. Why he climbed back in again, we don't know."

The bat is the only mammal that can fly.

Traffic Isn't The Only Weekend Hazard

Faith, trust left unspoiled if child dealt with honestly

A child has two hearts—the physical one, and the emotional one, according to a release received by the Health League of Canada, from the Journal of the American Medical Association.

Dr. Willis J. Potts, of the Children's Memorial Hospital, Chicago, says: "The physical heart is a rugged mechanism that will tolerate the ravages of infection, the scars resulting from impaired blood supply, and the approaches of surgeon's tools, but the emotional heart is a delicate mechanism, sensitive to the slightest wound of fear, insecurity, indifference, thoughtlessness and misunderstanding."

Doctors often must deal with both hearts, but when even they are not working with the physical heart, they must consider the emotional one, he says. The emotions roused in children by encounters with doctors and nurses, long hospital stays, and surgical operations can leave deep and serious psychological scars.

During a prolonged hospitalization the child needs more than the minimum of attention. Even under the most hygienic surroundings, the child will develop poorly—physically and mentally—unless he gets essential tender, loving care.

To many children, a hospital experience is a nightmare, he says. Before the age of reason, a child is unable to comprehend why he should be separated from his mother. Nurses frequently can act as substitute mothers to the very small child, but the three or four-year-old wants his "mommy".

Children from stable, closely-knit rural families are especially co-operative in hospital. Other children, who have few restrictions at home, also learn to co-operate when they are in the hospital for long periods. In fact, they actually enjoy the intelligent restrictions of an orderly life, says Dr. Potts.

"Children are such amazing little creatures," he says. "Tell them in simple words why they have to go to the doctor or the hospital, or why they have to have an operation, and, in most cases, they will co-operate in a fashion that adults might well emulate. Faith and trust are completely unspoiled

when children are dealt with honestly. So little effort; so great the reward. The heart of a child sunned by love, security and understanding will be able to withstand the storms of illness and pain."

Stop soil from drifting

OTTAWA.—Only a limited amount of soil drifting has occurred in the last few years in the prairie area due to favorable moisture conditions, winds of moderate velocity and adequate surface cover. These conditions may not continue and if precautionary measures are not observed a recurrence of the past soil drifting menace could occur.

The amount of soil removed and the intensity of movement from any area for a certain wind depends on the fineness of the soil and the surface cover. The amount of erosive particles on the surface of the soil can be determined and this gives an indication of the susceptibility to erosion.

Field tests were made in the fall of 1955 at the Soil Research Laboratory, Swift Current, Sask., of different areas and these were found to be relatively safe from blowing due to a sufficient number of large particles and clods.

However, when these same areas were tested in the spring of 1956 before any cultural treatments it was found that in all cases, with the exception of one, they had become susceptible or highly susceptible to erosion. The one case which was less erosive had a surface crust but after one cultural treatment this area also became highly susceptible.

The effect of freezing and thawing from the fall to spring caused a breakdown of the soil aggregates thereby making it more susceptible to the wind.

Cultural operation should be planned to prevent pulverization and burial of crop residue. A good surface cover of crop residue and clods may mean the difference between a crop and an eroded field.

LOSE A MINUTE—SAVE A LIFE

How to Reduce Swollen Painful Piles

Here is a nice, clean, easy way to get real relief from the nagging distress of swollen, painful piles without the inconvenience of ointments, pile pipes or suppositories.

The secret is in taking just one small Hem-Roid Tablet, with water, two or three times a day. Works through effective INTERNAL action. Quickly eases constipation, relieves itching, soreness and pain. Helps shrink piles and permits them to heal.

Why suffer needlessly when Hem-Roid offers you so much. Get a package today. See for yourself how nice Hem-Roid is to use, how effective it is and how much more comfort it will quickly bring you. All drug stores. Low cost. Money refunded if you are not 100% pleased.

PATENTS

AN OFFER TO EVERY INVENTOR. List of inventions and full information sent free. THE RAMSAY COMPANY, Registered Patent Attorneys, 273 Bank Street, Ottawa, Canada.

STOP the ITCH of Insect Bites—Heat Rash

Quick! Stop itching of insect bites, heat rash, eczema, hives, pimples, scales, scabies, athlete's foot and other externally caused skin troubles. Use quick-acting, soothing, antiseptic D. D. D. PRESCRIPTION. Greaseless, stainless. Stop itch or money back. Don't suffer. Your druggist has D. D. D. PRESCRIPTION.

Do FALSE TEETH Rock, Slide or Slip?

FASTTEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, gooey, pasty taste or feeling. FASTTEETH is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTTEETH at any drug counter.

Sure to please!

Easy to make... and sure to please the fussiest appetite! You'll make them often... these light tender buns with a delicate orange flavor. For finest results when you bake at home, always depend on Fleischmann's Active Dry Yeast!

Orange Blossom Buns

1. Scald $\frac{1}{2}$ cup milk
Stir in $\frac{1}{2}$ cup granulated sugar
 $1\frac{1}{2}$ teaspoons salt
 $\frac{1}{2}$ cup shortening
Cool to lukewarm.
2. Meantime, measure into bowl $\frac{1}{2}$ cup lukewarm water
Stir in 2 teaspoons granulated sugar
Sprinkle with contents of 2 envelopes Fleischmann's Active Dry Yeast
Let stand 10 minutes, THEN stir well.
Stir in lukewarm milk mixture and 2 well-beaten eggs
1 tablespoon grated orange rind

- Sift together and stir in 2 cups once-sifted all-purpose flour
 $\frac{1}{2}$ teaspoon ground mace and beat until smooth and elastic.
Work in an additional 2 cups (about) once-sifted all-purpose flour
3. Turn out dough on lightly-floured board. Knead until smooth and elastic. Place in greased bowl. Brush with melted butter or margarine. Cover. Let rise in warm place, free from draft, until doubled in bulk, about 1 hour.
4. Punch down dough. Halve the dough; form each half into an 8-inch roll. Cut each roll into 8 equal pieces; form into smooth balls. Place in greased muffin pans. Brush with melted butter or margarine. Cover. Let rise until doubled in bulk, about 1 hour.
Dip 16 cubes of sugar one at a time, into a little orange juice and press a cube into top of each bun. Bake in a moderately hot oven, 375°, about 25 minutes.
Yield—16 buns.

Needs no refrigeration.

Published every Thursday by Hugh Pearce, Bassano, Alberta. Authorized as Second Class Mail by the Postoffice Department, Ottawa.

THE OBSERVER

The Bassano Stampede is over for another year and all those who labored to make the show the success it definitely was will have undoubtedly breathed a sigh of relief. The weatherman was most generous in giving us fine weather throughout the day and night as several heavy downpours were experienced in the districts very close to the Town.

Many comments were heard among the 4000 or so spectators praising the convenience of the new Stampede Grounds. The grounds are in fact a credit to the Bassano Board of Trade and to the whole Bassano district.

The show was carried off without a hitch and seemed exceptionally well managed. No unduly long pauses between events and the entire program was conducted smoothly and efficiently. The calves proved more than a match for the majority of the ropers but the winners posted fair time scores. The cowboy events showed some fine riding and the chuck wagon races were thrillers. All in all it was a splendid show and one to be proud of.

I would suggest that it would add to the comfort and convenience of the public if another unit of bleachers could be erected in time for next year's show and that arrangements be made NOW to provide entertainment for the children at the 1957 Stampede. It should be possible to arrange for a small mid-way, consisting of a merry-go-round, ferris wheel, etc, for the children and there is enough vacant land on the grounds to accommodate such equipment. The chances are that a small mid-way would increase the attendance figures too. The children would insist on attending these attractions and the parents would naturally have to attend with them. Such attractions, though are so popular on holidays such as July 1st that it would be necessary to book such a concession NOW to be sure that one was available for July 1st next year. The alternative would be for Bassano to buy some mid-way machines outright and operate them at every public gathering in the Town. I would like to see this suggestion seriously considered from every angle to a decision.

Holiday time has rolled around again and Ye Editor has planned to leave Alberta for a week and head for points east.

We have been unable to locate a person who would be willing and able to edit and print this newspaper, consequently we regret to advise that there will be no Bassano Herald issued next week. We expect to return home about July 15th and resume publication with the July 19th issue. We hope that our subscribers and advertisers will not be too inconvenienced by the cancellation of the July 12th issue but a person does need a holiday occasionally if he is to maintain the energy necessary to keep his nose pressed tightly against the proverbial grindstone of life.

Another trick to build forearm strength

In any sport in which the hands and forearm muscles are used, it's a distinct advantage to be strong in this area. The result will be harder hits in baseball, firmer strokes in tennis, lower scores in golf. It will also help your skill and endurance during a long game. Weak forearms hinder your ability and cause you to tire sooner.

One way to build your forearms is to keep a small rubber ball with you at all times. Squeeze this ball as hard and as often as you can during the day. Remember, do it with both arms, not just the one you use regularly.

Many champion athletes, in all sports, have used this simple trick effectively. Try it and see how well it works for you.

A trick to beat hot weather

During hot weather everybody is on the lookout for recovery aids to help offset the effects of heat. This is particularly important for the athlete, who has to play a hard game or go through his workout no matter what the weather, but every member of the family welcomes a recovery agent that gives a soothing relief from the humidity.

We've found that just about the best of them is tea, either warm or iced. A particularly ideal fatigue recovery aid is "tea cubes"—ice cubes made from tea and mixed with a special sweetening syrup. Here's how it's done.

First brew a pot of tea and let it stand for four minutes. Remove the tea, pour into ice cube trays and freeze into cubes. Prepare syrup of honey, lemon and orange juice, to taste.

To serve, put two cubes in a glass, half fill it with water, and fill the remainder with syrup.

This makes an extremely re-

freshing drink which combines the soothing lift of tea and the jack-up qualities of honey. It's extremely beneficial after a hard game or a session of gardening or other exercise. Athletes, however, should not take any ice cold beverage immediately before or during exertion, since it is possible it could have an adverse effect on the stomach. At such times, it should be slightly warm.

The Canadian Amateur Sports and Physical Fitness Development Service is a nationwide project operated by Sports College to improve standards of sports and physical fitness. This newspaper is pleased to participate in this service by presenting "The Sports Clinic" to its readers in the interests of this community. Further information about how the CASPFDS can help you may be obtained by writing to Sports College, Box 99, Toronto 1, Ont.

Quick Canadian Quiz

1. Which province has the most miles of sea-coast?
2. On the average, to move one ton of freight one mile by railway in Canada does it cost 1.5 cents, 4.7 cents, 7.4 cents?
3. Highest temperature on record in Canada is 113 degrees. In what part of the country did that record high occur?
4. What is the daily capacity of the Edmonton-Sarnia crude oil pipe line?
5. In 1956 was average taxation per family in Canada \$400, \$1,300, or \$2,000?

ANSWERS TO QUICK QUIZ

5. \$2,000 per family. 3. On the southern prairies. 1. Newfoundland. 4. 217,000 barrels a day out of Edmonton. 2. 1.5 cents per mile.

(Material prepared by the editors of Quick Canadian Facts, the pocket annual of facts about Canada.)

SHIFTING SANDS

Goodwin Sands is a dangerous bank of shifting sands stretching for about 10 miles five to 12 miles off the coast of Kent, England. They have always been dangerous to vessels.

"Roughing It"—1956

Funny and Otherwise

"Is it true that it's bad luck for a black cat to follow you,"
"Depends whether you're a man or a mouse."

Human nature is that which makes you swear at the driver when you are a pedestrian and at the pedestrian when you are a driver.

Sally: "Have you ever thought seriously about marriage?"

Mike: "Oh, yes, that's why I didn't."

Two survivors of a shipwreck, a seaman and a stockbroker, clambered on to a raft. "If a ship doesn't sight us soon," said the seaman, "we'll starve."

"Don't talk nonsense," snapped the stockbroker. "I've got plenty of money."

Collecting fares, the bus conductor stopped beside a small boy, who felt in all his pockets and looked under the seat while the conductor was waiting.

"What's the trouble, sonny?" he asked.

"I had a fifty cent piece and I've lost it."

The little fellow looked so upset that the conductor's heart was touched and he gave him a ticket free. The boy looked up and, on the point of tears, whimpered: "And what about my change?"

Clothing weight air conditioning stumbling block

Differences in weight of the clothing worn by the two sexes has created a stumbling block for air-conditioning engineers.

At the first all-industry Technical Conference held in Chicago recently, engineers took in stride such subjects as applications of nuclear energy and solar energy in residential housing.

But a report from Professor M. K. Fahnestock, of the Physical Environment Unit, University of Illinois, threw them for a loss. Discussing the relationship of controlled temperatures to human comfort, Fahnestock pointed out that, not counting belts and shoes, women wear an average of 1.25

TOOTHBRUSH REFILL

Stick your toothbrush in your pocket or purse and you're all set, says The Financial Post. No need to bother with toothpaste tubes that squash or caps that get lost. A new German brush with fine long-life nylon bristles has a hollow handle containing a four-week supply of mint-flavored liquid dentifrice. When the supply is exhausted the screw-in handle is discarded and a refill inserted in a matter of seconds.

pounds of clothing, while men ordinarily wear 3.56 pounds.

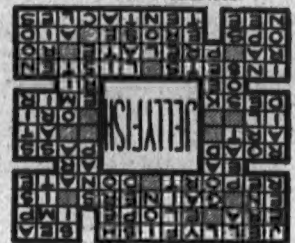

Since the ladies therefore like a higher temperature than men prefer, the obvious suggestion is that the two sexes occupy separate areas—but the engineers know that this won't do.

BASSANO BROWNIES SAY THANKS

Bassano's Young Brownies wish to thank all the people who helped to make their day such a success at the Stampede. Special thanks go to Mr. Simpson, who loaned his truck for the parade float and the time he spent in decorating it, and to Mary Ann Syroid, who drew the sign.

Thanks also to Mrs. Knight, Mrs. Burau, Mrs. Simpson and Mrs. Haskayne, who helped in the making of the popcorn balls, to Alex Leslie, who candied the apples, and to Stan Haskayne who stored it all for us.

The Brownies sold 500 Popcorn Balls and 150 Candied Apples and their receipts were:

500 Popcorn Balls @ 5¢	\$25.00
150 Candied Apples @ 10¢	15.00
Total Receipts	\$40.00

Once again to all who gave of their time and energy, the Brownies say Thank You!

THE POET'S CORNER

By A.R.

COME TO TEA

I have chests of silver
And fragile china plates
For suavely serving strangers
Who enter at my gates.

But for those of kindred nature
Who mix their food with wit
I'll set a different table
Whereat they'll longer sit.

Nothing will match - a rose tray,
Blue cups, two or three,
A Queen Anne pot with quaint cups
And a package of rare old tea.

And you can sit when all have gone
And dream the night away;
Sipping from out a dragon cup
With a gold spoon from Cathay.

- Written by A.R.

TOWN TOPICS

Don't forget the Infant and Child Health Clinic to be held in the Armouries on Thursday, July 12th from 1:30 to 3:30 P.M.

The Senior Baseball Club is planning to hold a Baseball Tournament and Dance on August 1st. There will be three or four baseball games during the afternoon. Dance music will be supplied by the Four Hits and a Miss. Make a note of the date and arrange to attend if you like watching good baseball.

The Stampede Committee paid out a total of \$1,661.15 in prize money to the cowboys at the Stampede on Monday.

Mr. and Mrs. Hugh Pearce and family are leaving for Naicam and Kenneston, Sask. on Saturday for a week's holiday.

The Alberta Government Telephones crew is installing several new telephones in Bassano at present. It appears that Bassano's population is still increasing and additional telephones are necessary.

Farmers are smiling over the much needed rains we have received over the past 10 days. The crops are improving in appearance already.

World Happenings In Pictures

KILLED IN RACE—Bob Sweikert, 30, of Indianapolis, winner of the 500-mile classic last year was killed recently when the car in which he was driving during a sprint race in Salem, Ind., leaped over a guard rail. Two spectators watch the car spinning in the air following the mishap.

ROCKEFELLER SEES GRAND-DAUGHTER WED—The rarely photographed John D. Rockefeller, Jr., arrives at Union Church, Pocantico Hills, Tarrytown, N.Y., for the marriage of his granddaughter, Miss Laura Spelman Rockefeller, to James Herbert Case, III. The bride is the daughter of Mr. and Mrs. Laurance S. Rockefeller. The groom is the son of Mr. and Mrs. Everett N. Case, of Hamilton, N.Y.

SKY TURTLE: A giant head is hoisted into place as the world's largest "turtle" is erected to serve as Chicago's newest weathervane. The three-and-a-half-story figure's back will change colors, depending upon the weather. It weighs 15,000 pounds and cost \$20,000 to build. The turtle will rotate atop Chicago's 10-story Flatiron building, with each of its three sides showing the time and weather forecast to passing motorists.

ANGUISHED MOTHER—Mrs. Theresa Stanikunas weeps on the shoulder of a friend as she learns that her daughter, Lorraine, five, and son, Michael, 10, died in the cave-in. Marie, right, sister of the victims also is in tears.

TALL CORPORAL: U.S. army's guided missile, "Corporal," dwarfs spectators at the recent International Air Show at Zurich, Switzerland, where this unusual high-angle shot of the lethal weapon was taken. Designed for use in the field, it can be equipped with either a conventional or atomic warhead. Corporal's effective range is said to far surpass that of conventional field artillery.

PEE-PUL POD—A newly developed passenger pod will solve the problem of getting people to jet aircraft. The pod, capacity 16 people, is picked up by a straddle carrier and carried out to the plane. Then the carrier raises the pod to the doorway and the passengers simply walk from pod to plane. The system, being shown, above, in Cleveland, Ohio, traffic, has been developed by Clark Equipment Company's Industrial Truck Division.

WARTIME SECRET AGENT MARRIED—Capt. Peter Churchill, the British secret agent who operated with the French resistance forces during World War II, is married in Nice, France. His bride, Miss Irene Hoyle, an Australian, met Capt. Churchill while she was working at a special operations school which he attended during the war.

FAMILY WITH A SPLASH—Sam Zamudio, left, and his son, Emilio, practice water skiing at Cypress Gardens, Fla. Doing a water version of a father-and-son act, the Zamudios set the mood for their community's observance of national Father and Son Week.
